

VESTRY NEWS AND REVIEW

The Mutual Ministry Review was completed in late June 2020. It identified three primary goals for the next 12-18 months: **enhancing digital technologies, in-reach, and inviting/welcoming/integrating new members.** Work toward achieving these goals is already underway!

With the support of the Vestry, the Regathering Task Force is diligently working to create a **Regathering Plan**, including bringing improved technology to the church. Have you wondered why services are not streaming from the sanctuary? The sanctuary does not currently have **internet access** nor do we have **adequate cameras**, but the Regathering Task Force will soon rectify that.

Stay tuned for a **reopening survey** and more updates from the Regathering Task Force.

As for in-reach and new members, if you are new to St. Martin's, please send an email to info@churchofstmartin.org . Our new Welcome Wagon program would love to get in touch. Also, keep your eye out for an invite from the All Are Welcome team to **Trivia Night!**

Additionally, the Vestry is conducting an **ongoing review of policies and procedures**, including adopting a new conflict of interest recusal policy, revising endowment earning procedures, and coming together with the Social Justice and Outreach Committee to update giving strategies.

Thanks and stay safe!

On behalf of the Vestry,

Gabe Avila
